

Burnside.

Mr. John Faupel, of Hanna, a former resident of this district, called on some of his old neighbors and friends on Sunday on his way to Calgary to take in the Stampede.

The Lone Pine W.I. held their July meeting at the home of Mrs. Wm. Ahlgrim on Friday last. Plans were made for a dance on Friday July 29th, with a berry shortcake supper afterwards. Admission 75c; supper 25c a plate. Clemens-Bellamy orchestra. Keep this date in mind.

The August meeting will be held at the home of Mrs. E. R. Dawson on August 11th.

Mr. W. G. Liesemer and Milton Ford spent Sunday in this vicinity.

A great many from here took in the Carstairs Stampede last week, and report a good time.

Mr. and Mrs. N. Eckel and son took in the Oddfellows' picnic at Kivver's Lake last Thursday.

We are sorry to hear that Miss Anna Pross is very ill in the Didsbury Hospital.

Weddings.

Haigh-Weber.

A very pretty wedding was solemnized at St. Stephen's church, Calgary, Saturday afternoon, July 9th, when Miss Ruby V. Weber, daughter of Mr. and Mrs. H. E. Weber of Didsbury, became the bride of Mr. Philip P. C. Haigh, son of Mr. and Mrs. Charles Haigh of Regina, Sask. Canon James officiated.

The bride, who entered the church with her brother, A. Z. Weber, looked very charming in a dainty gown of peach georgette with lace-trimmed overskirt, and large slightly drooping hat to match. She carried a beautiful bouquet of roses and lily of the valley. Miss Marjorie Good was the only bridesmaid, and wore mauve taffeta made in bouffant style with poke-shaped hat in the same shade. Her flowers were of mauve and pink sweet peas.

Immediately following the ceremony a reception was held at the home of Mrs. J. R. Good, after which Mr. and Mrs. Phillip Haigh left for Banff by motor.

GIBBS-WILLIAMSON

A pretty wedding was solemnized on July 6th at the home of the bride's parents, Didsbury, Alberta, when Rev. Hayes, united in marriage Ann's Christina Williamson, only daughter of Mr. and Mrs. J. Whiteside, to Mr. Clifford Gibbs, only son of Mr. and Mrs. C. W. Gibbs of Didsbury.

To the strains of the "Bridal Chorus" from Lohengrin, rendered on the large Orthophonic Victrola, the bride entered the room on the arm of her father who gave her in marriage. She was charming in a gown of ashes of roses flat crepe de chene fashioned in bouffant style, her only ornament being a string of bluebird pearls. She carried a shower bouquet of butterfly roses and fern which harmonized beautifully with the lovely bridal arch of carnations and ferns. The bride was unattended.

During the signing of the register "At Dawning" was rendered on the Victrola by John Charles Thomas.

The rooms were decorated throughout with a profusion of roses and fern. The table which held the many and beautiful gifts was prettily centred with the bride's cake ornamented with rosebuds.

Following the ceremony a dainty buffet luncheon was served, during which a toast to the bride was proposed by Mr. A. E. Pearson of Calgary and was fittingly responded to by the groom.

The happy couple left on a motor trip to Vancouver, Victoria and Astoria, Oregon, the bride's travelling costume being a white felt hat and white blanket motor coat. On their return Mr. and Mrs. Gibbs will reside in Didsbury.

The invited guests were: Mr. and Mrs. J. McDougall, Mr. and Mrs. S. Tighe, Mr. and Mrs. N. Clarke, Mr. J. Pearson, Mr. and Mrs. C. Studer, Mr. and Mrs. C. Younges, Mr. and Mrs. S. Brown, Rev. Hayes, Mr. B. Parker, Mr. and Mrs. A. E. Krebs, Mr. and Mrs. O. R. Swingle, Mr. and Mrs. O. O. Swingle, Mr. and Mrs. C. W. Gibbs, Miss E. Kershaw, Miss M. Farrant, Mr. and Mrs. W. Coates, Miss R. Moyle and Miss B. Moyle, Mr. and Mrs. F. Ogilvie (Calgary), Mrs. and Miss Hagle (Calgary), Mr. and Mrs. Ficht (Calgary), Mr. and Mrs. A. E. Pearson (Calgary), Miss Lillian Goodwin (Vegreville), Mr. R. Williston (Salmon Arm, B.C.), Mr. F. Mercer (Calgary), Mr. and Mrs. A. Boucher (Columbia, South America).

Don't forget your exhibit for the Fair on August 3rd. See the secretary, C. E. Reiber.

The Fruit Outlook

As we see it.

Strawberries about finished. Apricots coming from California. Price is reasonable. Shortage of B.C. Apricots may make prices higher. Sweet Cherries, Bings, Royal Annes, in full swing now. Prices higher on account of shortage in B.C. Black Currants right in season. ORDER NOW. Raspberries to come.

By leaving your order we are able to better arrange to have good fruit at the right price.

You must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in Aluminum.

The Message Of The Bells

Canada, which in its sixty years as a confederated Dominion, has established more than one world record of worthy achievement, placed another to its credit on the anniversary of its Diamond Jubilee when, through the greatest linking up of radio broadcasting stations ever attempted, the ceremonies at the national capital were thrown into the air and carried to the uttermost parts of the Dominion, and listened to by hundreds of thousands of people from Prince Edward Island to British Columbia.

The achievement was not only spectacular but well worth-while. Direct from the Houses of Parliament, over a network of telegraph and telephone wires, to a total of twenty-three broadcasting stations, the messages of His Majesty the King and the nation's leaders were carried, interspersed with the singing of patriotic songs by great choirs, and the thrilling tones of the bells of the wonderful carillon installed in the Victory Tower at Ottawa.

For the moment the farthest east and the farthest west, and all the intervening territory, was in instant and common communion. Distance was annihilated, geographical barriers rendered of no account. The heart throbs of the nation, sounded in the national capital, were heard and felt throughout the length and breadth of the land. It was a union in spirit and sentiment, as well as in fact, undreamed of by the Fathers of Confederation.

Amazing as an engineering feat, it was still more wonderful as a demonstration of the national unity of the Canadian people. It was an unanswerable reply to all those doubting souls who have declared that, with its complexity of racial, religious, geographical and economic problems, Canada could never become a united people. Canadians everywhere felt a thrill of national pride as they listened to the message of the bells from their national capital.

The message of the bells was, however, not for Canada alone, but for the whole world. The inscription on the largest bell reads: "This carillon was installed by authority of Parliament to commemorate the Peace of 1918, and to keep in remembrance the service and sacrifice of Canada in the Great War," while around the rim of the bell are the words: "Glory to God in the Highest and on Earth Peace, Goodwill toward men."

In the Great War, Canada fought, not for herself alone, but for all the world, for the maintenance of civilization and liberty everywhere, for justice and the right. In the great Victory Tower from which the bells ring out their message is located the Peace Memorial Chamber wherein on an altar rests the Book of Remembrance containing the names of the more than sixty thousand Canadian soldiers who made the supreme sacrifice for Canada and the world. It is a great monument, not to war, but to peace.

In his beautiful description of the Tower, the Memorial Chamber, and the Carillon, Premier Mackenzie King emphasized the idea underlying it all, and in his concluding words, after referring to the Angel's song to the shepherds: "Glory to God in the Highest and on Earth Peace, Goodwill toward men," he said: "Back to the skies it returns at noon today, not the echo of a mystical strain heard on a Judean moor, but the voice of a nation in thanksgiving and praise which will sound over land and sea to the uttermost parts of the earth."

That is the Message of the Bells—a message from this young, virile Dominion to all lands and all peoples, a message of Peace and Goodwill.

That is the Message of the Bells—a message rung out from their national capital to the people of Canada, a message calling them to continued patriotic service to a Canada at peace at home and with the world, a message urging the cultivation of a spirit of goodwill to all, a message from the bells in which let it be hoped, all old suspicions, rancors, and feelings of ill-will will be silenced and all racial, religious and political frictions drowned.

That is the Message of the Bells—a message to all who make Canada their home, irrespective of the land of their birth, to render deep devotion, patriotic service and, when needed, self-sacrifice to the Dominion, to show goodwill each to his neighbor, to co-operate together for the common good and the future peace, progress and prosperity of Canada.

Aviation Field For Lethbridge

Lethbridge is to have an aviation field available to commercial flying and aerial mail. The site is in North Lethbridge south of the standpipes and is sufficiently broad to allow of ten aeroplanes lying abreast. The location of air harbors follows the Federal Government's encouragement of aerial navigation for commercial purposes.

Thirty-five Years Making Toy

After 35 years' effort, Charles W. Aldridge, of Battersea, England, has just completed a doll's house. In a match box. The house contains four rooms, and is perfect in every detail, even to shelves, pictures on the walls and coverings for the tables. A tiny doll is mistress of the diminutive home.

Canada Colonization Association

Col. J. S. Dennis Tells of Work Being Carried On

Col. J. S. Dennis, Commissioner of the Department of Colonization and Development, Canadian Pacific Railway, gave a very interesting address at Winnipeg recently, in which he outlined the work that is being carried on by this organization. He produced figures showing that a vast amount of work has been accomplished since the inception of the undertaking in 1919. The total value of the land and equipment colonized to date amounts to approximately \$20,000,000, of that amount \$16,000,000 represents the land, \$3,000,000 is represented by chattels, and \$1,000,000 additional buildings provided by the land owner. "We have spent a considerable time to endeavor to find out what was the actual value of an agricultural family to Canada," said Col. Dennis, "and we are able to show from government returns that the value of a family, consisting of five, to the mercantile and industrial life of Canada amounted to \$1,583 per annum, that is covering a budget of what they need in the way of clothing, shoes, etc. We also went to some trouble to find out what a family of the same size is worth to a transportation company, and we ascertained that a family of five adjacent to a railway, whose budget was the amount I have mentioned amounted to \$716 per annum in transportation.

"It is a matter of simple figuring and does not need any mathematician to make it perfectly clear to the business interests of Canada what the results will ultimately be if we increase the movement of our agricultural families from the small numbers we are now able to get to a wide margin. The smaller places particularly in the West have a big interest in this, because every 10 families mean to the merchants in that town \$15,000 per annum for supplies which the merchant furnishes. The question of what it means to the transportation companies appeals very strongly to the executive of both railways, because we have these two companies recruiting the people that we can absorb, placing them on the land, and giving them attention after we get them here. These departments are costing the railways large sums of money, and I do not think it is unfair to say that the people of Canada as a whole do not appreciate what this means to them in immediate returns. It is true we obtain the benefit derived from the transportation of these people, but this is a small item compared to the benefit to Canada generally.

"We have compiled figures, which show that the C.P.R. expended \$70,000,000 in colonization and development of Western Canada, and that sum is in excess of the total sum which has been expended by the Dominion Government and further considerable expenditures are being made in a direct effort to speed up the movement of desirable colonists to Canada for developing the unproductive land, of which a very considerable proportion will bring no direct returns to the Canadian Pacific Railway.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

India Provides Remedy

Oils Extracted From Tree Seeds Used in Treatment of Leprosy

It is a notable fact, says an article in the Times of India, that India, which is believed to contain one-fourth of the leper population of the world, also provides the material from which has been derived the most potent remedy for that fearful disease.

It is simply another proof of the wisdom of nature in placing a remedy contiguous to every disease. It is from the seeds of trees growing in Assam and in South India that the oils are extracted, from injecting solutions of which Sir Leonard Rogers proved that the disease could be most successfully attacked.

Trees That Attract Lightning

Pine, oak and spruce are the trees most subject to lightning stroke, while beech is nearly immune, according to a European survey. In the American West, 72 per cent. of the trees hit are western yellow pine and Douglas fir.

WILSON'S
FLY PADS
KILL FLYES
AND MOSQUITOES
AND OTHER
INSECTS

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads

London's Tribute to Canada

Daily Mail Says Dominion Is "Nation With a Noble Soul"

Under the caption of "A Nation With a Noble Soul," The Daily Mail's chief editorial referring recently to the Confederation Jubilee celebrations in Canada said: "The only misfortune from the British standpoint is that owing to the combined influence of the dole and low birth rate in Great Britain the British proportion of immigrants seems destined to decline.

"It was never true that the happiest states are those which have no history and in the last 30 years the Dominion has helped to make history, and has influenced world events. Her statements originated the idea of Imperial preference which will be certain of realization hereafter when the British people discover the peril of one-sided free trade.

"The Canadian monument at Vimy Ridge will remind men for centuries of what Canada did in the Great War and how, in the hour of battle and sudden death, she was not unfaithful to the call of honor and love.

"The Dominion today has given proof that she sets the ideal above the material and is a nation with a noble soul."

Simplified Spelling

As a result of 30 years' effort by the simplified spelling board of America 12 of the 30,000 respelled words contained in the handbook of this society have been entered in some English dictionaries. They are: tho, altho, thru, thruout, thoro, thoro fare, thoroly, program, catalog, decalog, pedagog and prolog.

Large amounts of piling in the harbors of both the Atlantic and Pacific coasts are ruined each year by wood borers.

THIN, WATERY BLOOD ALWAYS DANGEROUS

If Not Corrected Serious Results Sure to Follow

In no trouble is delay or neglect more dangerous than in anaemia—thin, watery blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before the trouble is recognized.

But taken in time the tonic treatment through the use of Dr. Williams' Pink Pills, so enriches the blood that good health and strength is speedily regained. The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. Miss Teresa Healey, Dunsmuir, Que., is one of the many anaemic sufferers who has found new health through the use of this medicine. She says:—"I cannot express too warmly my thanks for what Dr. Williams' Pink Pills have done for me. I was suffering from a badly run-down condition. I was very nervous, had little desire for food, and would feel tired out at the least exertion. In this condition I began taking Dr. Williams' Pink Pills, and before using them very long found my health gradually improving, and under their continued use was completely restored. For this reason I earnestly advise all weak girls to take these pills, feeling sure that they will do for others what they did for me."

Send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., and they will mail you free a useful little book on "Building Up the Blood." The pills can be obtained through any druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The 16-acre plot of land on which the White House stands was purchased originally for \$1,600. Now it is valued at \$10,500,000.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acetate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

TO CLOSE MANY SMALL PORTS OF CUSTOMS ENTRY

Ottawa.—The closing of a lot of small ports of customs entry throughout the country will have to be tackled soon by Hon. W. D. Euler, Minister of National Revenue, and the action which is projected seems likely to cause some trouble.

The special committee of the House which last year began the inquiry into the customs administration recommended among several things, decrease in the number of customs ports and some of the commercial bodies previously had suggested the same thing. Money is lost from the operation. There is one case where the collections last year were only \$30. Nevertheless, a community that has a customs house in its midst regards it as a sign of status and will not readily relinquish any such service. It is believed any reforms in this direction will be effected with caution as the smaller the port that is closed, the louder is likely to be the consequential protest.

Meanwhile in the re-organized preventive service, this is the busiest season. Smuggling and bootlegging are done mainly in the summer. The enlarged service is at work and new motor cars and motor boats are being delivered, while light but fast cruisers are under construction. The number of seizures has greatly increased this year and has resulted in a remarkable growth in revenue. Sales and excise taxes are conspicuous factors, while some border points heretofore making small contributions to revenue are now taking in very substantial amounts. Mr. Cowan, chief of the preventive service will leave in about a week to attend to the final re-organization of the staff in the western provinces.

Higher Price Levels

Index Number of Commodities Slightly Higher in June

Ottawa.—The Dominion bureau of statistics index number weighted according to the commercial importance of the 236 commodities which are included in its computation rose 1.6 points in June, being 153.5 as compared with 151.9 in May.

Vegetable products rose from 174.0 to 181.1, higher levels for grains, flour, potatoes and some fruits more than offsetting lower levels for coffee, tea, raw sugar, hay and straw. Animals and their products fell from 135.7 to 134.0 declines in livestock, pork products, mutton and butter more than offsetting advances in hides, leather, boots and shoes, and beef.

Dicovers Process For Making Gold

French Scientist Claims He Has Solved Problem

Paris, France.—Professor Jolliet, French scientist, claims to have solved the problem of the ages—the transmutation of silver and other base metal into gold. He says he has succeeded in getting 20 milligrammes of gold from a mixture of other metals, including six grammes of silver. He believes that considering the cost of the agents employed the process will have great industrial value.

Sale Will Not Be Rushed

Winnipeg.—No action will be taken on the beer referendum results until the official returns have been received from all constituencies of the province, said Premier J. Bracken on his arrival here from his annual visit to the Brandon fair. Whether the result would demand a special session or not the Premier was not prepared to say.

Freight Rates Reduced

Moncton, N.B.—Freight rate reductions between the Maritime provinces and central Canada as provided for by Parliament at its last session when the report of the Duncan Royal commission was largely implemented by the Government are now in effect, the tariffs having been issued July 1.

W. N. U. 1689

Expedition Has Gone To Hudson Strait

Canada Will Set Up Aerial Bases in Northern Regions

Ottawa.—The government's aerial expedition has gone to Hudson Strait. It is proposed to establish three aerial bases, one in the vicinity of Port Burwell, at the east end of Hudson Strait, one in the vicinity of Nottingham Island, at the west end of the strait, and one in the vicinity of Big Island, on the north side of the strait, about midway between the two. The distance between Pt. Burwell and Nottingham Island is 500 miles. Hon. C. A. Dunning in receiving the airmen said: "It is the policy of the government to provide for the development of the best port on the bay in order that all the resources of the territory adjacent to and surrounding the bay may be exploited and developed. Secondly, it is the intention of the government to provide, so far as the facts which you will determine will permit for ocean navigation from a port on the bay to any other part of the world."

Coast Cities Sponsor Flight

Two B.C. Aviators Anxious To Try London, to London Trip

Vancouver, B.C.—F. Turner is the second British Columbia aviator who has applied to make the proposed London, Ont., to London, Eng. flight. It was announced, S. A. Mowat, New Westminster, formerly of Regina, was the first.

Turner, who served two years overseas in the flying corps, has wired the promoters of the flight that he wishes to make the trip alone. He has met Mayor Louis Taylor to discuss the possibility of his effort being backed by the city. New Westminster has already sponsored the application of Pilot Mowat.

Mayor D. R. McLaren, president of the air force club of British Columbia, has announced the club would be behind any sound project for a flight from Canada to England.

Will Use Canadian Readers

New Brunswick Has Prescribed Series For Use in Schools

Fredericton, N.B.—The New Brunswick Board of Education has prescribed the series of Canadian readers for use in the schools of the province. Nova Scotia is to adopt the same series shortly and Prince Edward Island will do the same, it is expected. British Columbia, Alberta, Saskatchewan and Manitoba already use the series. With the Maritimes adopting it seven out of the nine provinces will have the one series of reading books in the schools.

Measuring Heat Of Stars

Delicate Instrument Is Being Used to Conduct Experiments

Washington, D.C.—Flies' wings form part of a delicate instrument which will be used by Dr. Charles G. Abbott of the Smithsonian Institution for measuring the heat of stars. Dr. Abbott has gone to Mount Wilson, California, to conduct his experiments.

The "radio meter" is so sensitive that it could measure the heat of a match 5,000 miles away if no atmosphere intervened, the scientist said.

Surgeons May Establish College

Regina.—The formation of a Royal College of Physicians and Surgeons for Canada is being considered by the medical association, according to a statement made by Dr. S. E. Moore, who has just returned from a medical convention in Toronto. It would be affiliated with the same body in Great Britain.

Returning in Airplane

Paris, France.—Charles A. Levine, who accompanied Clarence Chamberlin in his flight to Germany, intends to fly back to New York as soon as he can find a French pilot to go with him. He made this declaration at a luncheon given by the American and British correspondents here.

To Entertain British Editors

Ottawa.—Officials of the Dominion Government here will entertain a group of 100 British newspaper publishers and editors representing various provincial newspapers, in August.

U. S. ADJUSTS DIFFICULTIES OF BORDER RULING

Washington.—The recent negotiations between the Canadian legation and the United States Department of Immigration have resulted in clearing up some points in the border crossing regulations. The regulations were the subject of international discussion when the Labor Department imposed new regulations affecting Canadians living in the Dominion and working on the American side of the border.

One important point is the status of Canadians who comply with the head tax and visa regulations, thereby qualifying technically as immigrants to the United States. Immigration experts have ruled that these commuters may continue indefinitely to enjoy the border crossing privilege without further payment of fees or renewal of passports, except that periodical inspection is proposed of commuters' permit cards, probably every six months.

Even if commuters change their place of employment in the United States, they will not be subject to challenge. Also, they may discontinue commuting for a reasonable period and re-commence under their old status provided they do not contravene any of the fixed clauses of the United States Immigration Act.

Another important phase of the new regulations has been clarified with the assurance of the Labor Department that Canadians may qualify as commuters in the future. Some phrases of the order raised a doubt as to whether Canadians not already commuting when the order was issued would be able to enter the United States daily to work on that side of the border.

Sending Dogs To Arctic

Eight Specially Trained Huskies On Way to Coronation Gulf

Vancouver, B.C.—Having completed nearly 1,000 miles of a 3,000 mile journey, a team of eight husky dogs arrived here from a point near Armstrong, in Northern Ontario. They are bound for Coronation Gulf in the Arctic. They embarked on the steamship Haychimo which sailed July 7.

The dogs are consigned to the Inspector of the Hudson's Bay Company at Coronation Gulf and are a specially trained team, developed for stamina and long distance pulls.

Will Try For Altitude Record

Chamberlin Expects to Keep Plane Aloft Over Sixty Hours

New York.—The Bellanca monoplane, Columbia, in which Clarence Chamberlin and Charles A. Levine flew to Germany, will be used by the same aviators as soon as it is brought back from Europe in an attempt to break the world's endurance record. Joseph May, secretary to Levine, said increased fuel is expected to keep the plane aloft for more than 60 hours.

Senior Golfers to England

Canadian Senior Golfers photographed just before sailing recently on the Canadian Pacific steamship Montclair for Great Britain, where they will meet international veteran golfers in a series of matches. The players are from left to right in the back row, F. J. MacKay of Sarnia; Ralph Connable and E. A. Parker of Toronto; Dr. J. Sheahan, St. Catharines; Sir George Garneau of Quebec City; Dr. D. Buchanan, Galt; and J. D. Fraser of Toronto. Those sitting are C. Y. Stanier of Winnipeg; Mrs. F. A. Parker; George S. Lyon, 69-year-old veteran who will captain the team, George C. Helntzman and Dr. W. M. McGuire, all of Toronto.

Settling British Boys On Canadian Land

Governments Agree To Assist Them In Buying Farms

Ottawa.—What is expected to be the most constructive of modern land settlement schemes is embodied in an agreement for the settlement of British boys on the land in Canada, just concluded between the British and Canadian Governments under the Empire Settlement Act of 1922. Under the scheme it is proposed to jointly expend a total sum of five million dollars over a period of ten years.

The scheme will apply to boys who have received assisted passages, have passed through the provincial training centres in Canada, and who were between 14 and 20 years of age on arriving in the Dominion.

On reaching 21 years of age, the boys—provided that they have acquired the necessary training and experience by working for wages on a farm in Canada, and have saved approximately \$500—will be eligible for assistance up to an amount not exceeding \$2,500 for the purchase of a farm and for stock and equipment. No advances will be made to young men over 25 years of age.

Settlement under the scheme will commence on April 1, 1928.

Build Big Battle Plane

Huge Airplane Under Construction in United States

New York.—The New York American says a huge battle plane designed to carry five machine guns and gunners is being constructed for the War Department. The plane was designed by Anthony Fokker.

The plane with a wing spread of 73 feet, is larger than the monoplane America, which Commander Byrd flew across the Atlantic.

In addition to its machine guns the plane will have provision for carrying 3,400 pounds of high explosives with which to bombard land or sea forces, it is said.

Hon. Robb Takes Vacation

Says Finances of Country Are in Good Condition

Quebec.—"I am not going to Europe to negotiate a treaty with Germany, and I will only visit France and England," declared Hon. J. A. Robb, on board the "Empress of Australia," which sailed for Cherbourg and Southampton. Mr. Robb declared he needed a rest after strenuous work at Ottawa.

"I am going," he said, "leaving the finances of the country in fine position. We have the money sufficient to meet our requirements and I will return in August."

Cattle For Canada

Montreal.—The Canadian Trade Commissioner at Bristol reports the formation of the South Wales and Monmouthshire Cattle Importers' Association, Limited, whose chief purpose is the direct importation of Canadian store and fat cattle. This new group represents nineteen meat traders' associations in the region indicated.

WILL DROP PLAN FOR REFORM OF HOUSE OF LORDS

London.—Announcement in the House of Commons by Premier Baldwin that the Government's scheme for the reform of the House of Lords, which has created something of a political furor, was merely "a basis for discussion and criticism," is taken by political observers to indicate that the reform of the Lords may be dropped completely for the time being.

During the debate, which aroused parliamentary interest only as a discussion of the fate of Great Britain's upper chamber can arouse it, there was no affirmation of Lord Bickenhead's recent assertion in the House of Lords that the reform would be rushed through in the life of the present Parliament.

Ramsay MacDonald, leader of the Labor Opposition, moved a vote of censure on the Government on the question of the reform of the Lords, basing his motion on the charge that the Government had received no mandate from the people for its proposed changes. The motion was defeated, 362 to 167.

The Prime Minister had to listen to criticism from Laborites, Liberals and Conservatives. John Buchan, newly elected to the House, voiced in his maiden speech the views of the dissenting Conservatives.

Mr. Lloyd George, the Liberal leader, declared that in the past the Liberal Government, in considering reform of the House of Lords, had decided to leave "the ramshackle thing where it was."

Prince Making Few Public Engagements

Premier Baldwin Will Carry Chief Burden During Canadian Visit

Ottawa.—There will be few actual public engagements during the visit of the Prince of Wales, from what can be learned at the present time.

Premier Stanley Baldwin will probably carry the chief burden of public appearances. During the Prince's three-day stay in Ottawa only Wednesday, August 3rd, will be taken up with official duties. His Royal Highness will at noon on that day unveil the altar of sacrifice in the memorial chamber of the Victory Tower.

Later he will unveil the statue of Sir Wilfrid Laurier recently erected on Parliament Hill and then visit the International Poultry congress while it is in session.

Farm Area On James Bay

Has Same Prospects As Peace River District Says Professor

London, Ont.—According to Prof. J. W. Russell, head of the Department of Geology of the University of Western Ontario, "500 miles due north of London lies, in the district known as the James Bay, extending from the shores of the James Bay inland about 125 miles and covering an area twice that of Western Ontario, the greatest settlement, agricultural and population possibility in Northern Ontario. It is one of the two great population possibilities in Canada, the other being the Peace River district." Prof. Russell said that the James Bay had all the characteristics of Western Ontario in pre-settlement days.

Farmers Lose Heavily

Edmonton, Alberta.—More than nine thousand acres of hay land in the area of Big Lake, lying between Edmonton and Lac Ste. Anne, have been inundated and the hay crops destroyed at an estimated loss of \$90,000 to the farmers, owing to the flooding waters of the Sturgeon river, according to A. M. Kirkpatrick, government engineer, who has returned to Edmonton after making a survey of the Big Lake, Lac Ste. Anne and Wabamun districts.

To Prevent Liquor Smuggling

Moncton, N.B.—An understanding has been reached by which the Canadian National Railways, the Customs Preventive Service of Canada and the United States Customs Services will co-operate to prevent the illegal movement of liquor from points in the Maritime provinces to other centres in Canada and the United States.

LOCAL AND GENERAL

Kendrick and Good shipped two cars of hogs this week to New Westminster.

Mrs. Phillipson, Mrs. Hillyard, and Mrs. Derby and families are visiting at Sylvan Lake.

Mr. and Mrs. Kendrick and family are touring the southern part of the province this week.

Mrs. S. G. Watt and family are spending the summer holidays at Buffalo Lake.

The members of the Golf Club are playing the qualifying round here to day in connection with the Calgary Herald Cup competition.

John Metzgar has been visiting his old friends here the past week, returning on Monday to his present home at Oliver, B. C.

On Wednesday, July 13th, the Olds baseball team played Didsbury on the home grounds. Cecil Studer pitched a good game and showed he had control and speed. Both sides were hitting often but the work of the infield prevented many runs. Ward Keith hit a three-bagger. The game ended with the score 12-8 in favour of Olds. Line-up as follows: Clemens, catcher; Studer, pitcher; Wyman, first base; Cook, second base; Liesemer, shortstop; Evans, third base; Reiber, left field; Stauffer, center field; Keith, right field.

A big thing is scheduled for Saturday night at the Opera House in "The Flaming Forest." This is a story of the Canadian North-west at the time of the Riel Rebellion, written by James Oliver Curwood.

Henry Erb, who was charged a couple of weeks ago with assaulting his wife, and after being found guilty was bound over to keep the peace or in lieu thereof to three months imprisonment, was released from the gaol at Lethbridge on Monday, bonds for his future good behaviour having been furnished by M. Weber and John Tracksell.

Didsbury U.F.A. and U.W.F.A. will hold the annual constituency convention in Didsbury on Wednesday, July 27th, commencing at ten o'clock. A. B. Claypool, M.L.A., will be present and probably other speakers.

On July 4th, Fred Imm was brought before J. W. Phillipson, charged with illegally detaining and impounding milk cows, the property of Mrs. Cummings. He had, it appeared, kept them at his

own farm and neglected to milk them. Pleading guilty to the charge, Imm was fined \$56.00, including costs.

Miss Florence Reiber returned to Brooks on Tuesday.

Mrs. Mjolness is spending the week in Calgary.

The annual camp meeting in connection with the Mennonite Church will commence at Didsbury this year on July 21st, and be continued to the 31st. The evangelist will be N. W. Rich of Council Bluffs, Iowa, and Prof. and Mrs. W. R. Hallman, song evangelists, will also assist at the meetings. Any information will be gladly furnished by Rev. C. J. Hallman.

A sample of wheat brought into the office on Tuesday, grown on the farm of Dageforde Bros. at Westcott measured 42 inches in length. This was sown about the end of April. It did not show however, above ground till about six weeks after seeding, giving remarkable proof of rapid growth and fertility of soil. Oats grown

on breaking at the same farm, seeding of which followed the wheat, now stand 38 inches high.

Westcott has always enjoyed the reputation of being a good district, and this year the prospects were never better.

All members of the Didsbury Tennis Club who, up to the present, have not paid their dues, are requested to do so as soon as possible. As the funds are low and the courts are in need of immediate attention, a response to this request will be much appreciated.

According to reports received the big storm which swept through the district north-west of Didsbury on Thursday of last week inflicted considerable damage.

Standing crops were flattened to the ground, chickens and turkeys killed, and in numerous instances, buildings and residences had their windows shattered. Hail stones measuring three and a half inches were picked up in the wake of the storm. It is difficult to estimate even approximately the damage sustained beyond the fact that a large area has to be covered by hail adjusters. These men are now scouring the district and settling

Canadian Wealth Goes Up in Smoke

Left—Right-of-Way near Alberni, B.C. Right—Motoring among the Big Timbers. (Inset)—Farm clearing on Vancouver Island

The forest fire situation in Canada during 1926 again proved a very serious one. Indifference, ignorance and carelessness, and other malevolent forces meant a total loss and gross damage to Canada last year estimated at \$7,468,343. Since the exploitation of Canadian forests first began it is estimated that from four to five times the amount of timber actually used has been burned through forest fires. When it is realized that the forests are the second greatest source of wealth, agriculture being first, the waste from forest fires each year can only be likened to the damage done if four-fifths of Canada's great field crops were destroyed each year.

Forest week has been observed this year in Canada from April 25 to 30, coming in the middle of the season when forest fires are often most serious. Perhaps the greatest offenders against the national wealth of the country during the summer and fall months are a great army of tourists and campers which invades the woods from the Pacific to the Atlantic every year.

"Stop! Before You Go, See that Your Fire is Out." Warnings worded something to that effect have been posted generously throughout the northern woods, especially in Ontario, and of the thousands of campers there are none who are not familiar with the bright yellow placard and its warning. Yet a deplorable number of tourists who call themselves good campers apparently think that such signs have been posted by the fire rangers merely to point out a good portage.

Burning cigar ends and cigarette stubs and, above all, the little camp fire that doesn't look as though it could do a bit of harm in the world, are the cause of great fires throughout the northern woods that mean a loss of millions annually to Canada.

It has been proved that some of the worst forest fires have been started by some apparently petty care-

lessness of a camper, and could have been prevented had he stopped for a minute or two and thrown a few pails of water on the smouldering embers. The camper who fails to take this slight precaution is guilty of a great crime against his country.

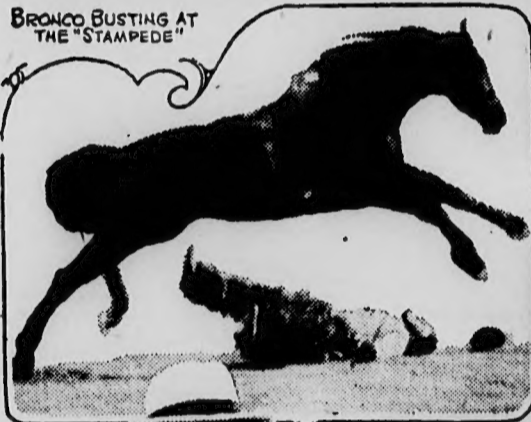

The introduction of aeroplanes into the fire patrol work in the north is proving of inestimable value to the country. The great advance that has been made in forest fire fighting today is through the fact that fire-detection and fire-suppression have been separated through the use of the scout planes. Formerly there could scarcely be a division of labor. Rangers were assigned to long beats which might take a fortnight to cover, who patrolled these singly or in two as circumstances warranted. It will thus be seen how limited would be the protection thus afforded for if the ranger discovered a fire too large for one man to handle it might take a week for him to communicate with headquarters for help.

The Canadian Pacific Railway Company have paid special attention to this serious question and have adopted most up-to-date fire fighting apparatus. In order to eliminate fires along their lines through sparks from engines, the right of ways are carefully cleared of anything inflammable, such as long grass and underbrush. During the passage of the company's trains through the mountain regions where the forests are heavy, oil-burning engines are used, thus entirely eliminating the danger of fires.

The mechanical equipment maintained at convenient points by the C.P.R. consists of a number of tank car units and hose. Each unit consists of two cars with a capacity of 7,000 gallons each, equipped with powerful pumps and about a mile of hose.

Through the co-operation of the railway with the various provincial forces many serious fires have been prevented, resulting in an enormous saving of Canadian natural wealth.

Reviving the Frontier Days of the West

Calgary's annual "stampee" in the foothills of the Canadian Rockies has for years past intrigued such famous artists as the late Charles Russell, and a long list of other artists, editors, cowboys, as well as frontiers-men like Col. John S. Dennis, who commanded the Dennis Scouts during the Riel Rebellion.

This big show where the last great west rubs shoulders with the effete east, will be staged in Calgary July 11-16. The greatest of its kind in North America it has among its patrons the Prince of Wales, whose E-P Ranch is near at hand, and the Governor-General of Canada. This year Pawnee Bill (Major Gordon W. Lillie), Will Rogers, famous cowboy humorist and Edward F. Albee, president of the Keith-Albee Circuit, have donated trophies for the various events through Guy Weadick, originator of the Stampede and Stampede manager.

The Stampede starts the first day with the interesting and colorful march through the streets of Calgary. Miles long the parade includes hundreds of

Indians in full war regalia, old timers of the prairies with their Red River carts, veterans of the famous Royal North West Mounted Police (now Royal Canadian Mounted Police), cowboys and cowgirls, chuck-wagon outfits with all manner of wild animals as mascots.

The regular "Stampede" program, run off daily under the direction of Guy Weadick, will include bronco-busting competitions, steer-riding, cow-roping, Roman standing races, chuck-wagon races and Indian races, in which square and buck ride as if for their lives. The Indian village in Victoria with its gaily painted tipis is colorful and interesting and there are a score of other attractions different in every respect to anything seen anywhere in Canada—one of these attractions needed 50 Canadian Pacific cars to transport it last year.

Calgary's annual stampede has been rightly described as "a living page from the history of the brave days of the frontier."

POOL BUYS MORE ELEVATORS

Twenty country elevators have been purchased by the Alberta Wheat Pool from the United Grain Company Ltd., according to an announcement from the offices of the pool during the past week. These elevators are located at Czar, Carbon, Halkirk, Hughenden, Irjeana, Mather, Big Valley, Bashaw, Byemore, Elnora, Excel, Meeting Creek, Mecheche, Rumsey, Rowley, Sibbald, Chinook, Youngstown, Cereal and Endiang.

The Alberta Wheat Pool now owns a total of 135 elevators in the province and it is expected that this number will be increased to 150 before the 1927 crop begins to move to market.

STRAY HORSES TO BE SOLD

A number of stray horses have been taken up in the Brooks district recently, states Livestock Commissioner S. G. Carlyle, and arrangements are being made for the disposal of those not claimed by their owners. The area covered by the round-up is described as follows: On the north the C.P.R. main line from Brooks to Monogram, then south to Terrace, east boundary Municipal District 123, south boundary the Bow River, west boundary a line straight south from Brooks to the Bow River.

The horses collected in the round-up are being held at J. J. Bowlen's Ranch (on the N.E. qr. of 25-14-11-W4th, six miles south of Alderson) and all of such animals not claimed before July 19th will be offered for sale on that date at Alderson. Application may be made to Mr. Bowlen before the date of the sale for the release of any horses where ownership is established and when such fee as may be fixed, not exceeding \$3 per head, has been paid to Mr. Bowlen.

MAKE SURVEY OF FARM LANDS IN NORTH

A complete survey to ascertain the amount of suitable farming land lying within easy access of the E. D. & B. C. and A. & G. W. railway lines will be undertaken by the provincial government during the present summer and fall in order to secure accurate information as to the potential wealth of the part of the province served by the government-owned railways.

This survey will be in charge of Alfred Chard, freight rate and traffic supervisor for the province, who will assemble and compile all available data. Field men will later be sent out to go over the ground not already covered in the preliminary inspection. Much information as to the amount of agricultural land available in crown land areas and Indian Reserves will be secured from the files and records of the Dominion Government.

Here and There

Two million dollars will be spent in the Central Manitoba mineral area on development work this year. Improved navigation and highways into this district are included in the activities of the Mining Bureau of the Winnipeg Board of Trade.

The development of the muskrat industry five miles south of Revelstoke will be proceeded with further this year, 160 acres having already been fenced in by the Revelstoke Muskrat Fur Breeders' Association.

Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland. There are thriving Swiss settlements in Notre Dame de Lourdes, Manitoba, and Stettler, Alberta.

Canada's chemical industry recorded an increase of \$7,500,000 in sales during 1926, as compared with the previous year, according to the Dominion Bureau of Statistics. Production by 533 plants was valued at \$120,369,518, as against \$113,000,000 for the previous year.

Shows Rapid Progress

It was only 41 years ago, the last spike was driven in Canada's first transcontinental railroad. Only 39 years ago, the first gold was found in Klondyke. Only 20 years ago, two of her great Provinces Saskatchewan and Alberta were created.

Agony of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of Rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c, at all dealers.

Even the man most anxious to please can no longer say that a woman's clothes suit her down to the ground.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

A professor of Dublin University believes the earth may be growing warmer under the influence of radioactive forces.

Keep Minard's Liniment near at hand.

SUNDAY SCHOOL LESSON

JULY 17

SAMUEL ANOINTS DAVID

Golden Text: "Let no man despise thy youth; but be thou an example to them that believe, in word, in manner of life, in love, in faith, in purity."—1 Timothy 4:12.

Lesson: 1 Samuel 16:1-13.

Devotional Reading: Proverbs 3:1-6.

Explanations and Comments

1. Samuel's Mission to Bethlehem, verses 1-3.—Saul had failed to measure up to the standard of what was expected of him. Saul's failure caused Samuel great sorrow. He realized that he must take definite action about Saul's successor, that such was God's will. He must go to Bethlehem with a flask (horn) filled with oil to anoint one of the sons of Jesse as the Lord's chosen king. Yet he hesitated to go. Would not Saul kill him if the fact became known? Then a way out of the difficulty came to his mind; as a matter of prudence he would give as the object of his visit the holding of a sacrifice, and would keep silent about the more important reason for his coming. He would give one reason for his visit, which was a true one, and would say nothing about another reason, which he was under no obligation to divulge.

"It was not concealment the object of which was to mislead any one, or to induce any one to do what he would not have done had the whole truth been known to him. When concealment is practiced in order to take an unfair advantage of any one, or to secure an unworthy advantage over him, it is detestable. But to conceal what you are under no obligation to reveal, when some important end is to be gained, is quite a different thing."—W. G. Blaikie.

Scarcity Of Beef Cattle

Reported That There will Be a Cattle Shortage in Saskatchewan This Year

A scarcity of beef cattle is likely in Saskatchewan this year, the experts say. The United Farmers of Ontario are reported in the market for a thousand carloads, as compared with 200 last year, and the opinion of cattle men is that Saskatchewan may not be able to furnish even the small consignment sent out last year. Up to the end of April Canada exported 8,000 head of cattle to Great Britain, compared with 29,000 last year, while hog shipments to the United States for the same four months are 106,000 compared with 3,364 for the same period last year.

Minard's Liniment for warts and Pimples.

A Baker's Dozen

In olden days pedlars in bread were formerly supplied with thirteen loaves for the price of twelve, the additional loaf representing their profit. It is also said that to avoid the risk of giving short weight (an offense visited with heavy punishment), bakers were accustomed to give thirteen loaves for twelve. But they don't do it now.

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Lotus seeds, believed to have been buried under layers of peat more than 500 years in Manchuria, have been made to grow in a laboratory.

HELP WANTED! MALE OR FEMALE

Earn upwards of \$25 weekly; growing mushrooms for us, using waste space in cellars, barns or outhouses. Light pleasant work for either sex. Commence now. Illustrated booklet, particulars and testimonials sent anywhere, for stamp. Address Dominion Mushroom Co., Toronto, 3.

Work has commenced on the second stage of a building, shown above, which when completed will be the highest in the British Empire—truly a monument to Canadian enterprise, towering about 450 feet above the ground, with a frontage of over 400 feet on Dominion Square, probably

the choicest site in Montreal. The present head office of the Sun Life Assurance Company of Canada, which architects declare to be one of the finest office buildings in the world, will be incorporated in the completed edifice, but it will only be a small unit as compared with the finished structure. The present head office is

now occupied to capacity with a staff of approximately 1200 people. The completed building will provide for a total staff of over 10,000. The entire building will be erected on a structural steel frame and the exterior faced with granite, and will be of the same monumental character as the existing structure.

Here and There

Platinum produced in Canada in 1926 totalled 9,521 fine ounces, or an increase of 1,000 over the year before, according to the Dominion Bureau of Statistics.

Dr. H. M. Tory, Chairman of the National Research Council, announces a discovery "of great scientific importance" in rust prevention, emanating from the Dominion Rust Laboratory. A more definite announcement is due shortly.

Canadian tobacco has been awarded a silver medal for "outstanding excellence" at the International Tobacco Exhibition held at Olympia, London, England, according to word received by the Department of Agriculture.

Fifteen Austrian families are about to take up land in the Okanagan Valley, near Kelowna being the first group to take up land in British Columbia under the Canada Colonization Association, a subsidiary of the Canadian Pacific Colonization Department.

Canada leads all nations in increased trade since 1913 according to statistics compiled by the National Foreign Trade Council of New York. Canada's increase was 85 per cent, Australia coming next with 45 per cent and the United States third with 31 per cent.

The Provincial Game Commissioner of Alberta announces bounties to be paid on wolves killed — \$20 for the pelts of female timber wolves, \$10 for that of males, and \$2 for adult and pup prairie wolves taken before September 1st and July 1st, respectively.

A total of 1,334 English boys have already been moved from the Old Country and placed on farms in Quebec and Eastern Ontario by the British Immigration and Colonization Association according to the figures given out at the annual meeting of that organization.

According to figures of the Canadian Government, Canada led all countries of the world by a wide margin as an exporter of wheat, from August 1 to December 31, 1926. In that period Canada shipped 167,795,000 bushels, her closest rival being the United States with 94,191,000 bushels.

Days of the covered wagon were recalled recently. Mr. and Mrs. W. G. Barker and six children arrived at Blenfaith Saskatchewan from Marshall, North Dakota, in an outfit consisting of a covered wagon, 19 head of horses and four wagons carrying their household effects and farm implements. They leased a half section of land.

General individual travel through the Canadian west is expected to be very heavy this year according to R. G. McNeillie, general passenger agent of the Canadian Pacific Railway at Winnipeg. Several important parties will also add to the number of travellers especially through the Canadian Rockies regions.

The life of John Pope, sailor aboard the American vessel Natirar was saved recently by instructions wirelessly by Surgeon Taylor of the Canadian Pacific steamship Minnedosa, after Pope had been critically injured by a fall of sixty feet from the mast. The two ships were 190 miles apart but hove to later and the injured man was transferred to the C. P. R. ship and rushed to Quebec.

Church Announcements EVANGELICAL NOTES.

The Children's Day Celebration at Sunnyslope last Sunday afternoon and at Westcott in the evening was a decided success in every way. The day was fine, the roads good, the attendance large, and the program was well rendered at both places. A sacred drama "The Challenge of the Cross," given by seven girls of the Didsbury Junior League, assisted in the music by several members of the Didsbury Choir was the main feature of the program. Local talent also took part very ably at both places. The offering which goes to Foreign Missions was as follows: Sunnyslope \$20.00, Westcott \$21, and with \$43 received at Didsbury, given for Foreign Missions on Children's Day.

Note and Comment:

1. The right way to begin travelling the right way is to begin right away.
2. The way to Heaven - take the first turn to the right, and then keep going straight ahead.
3. Taking the way of least resistance makes both rivers and men crooked.
4. Character is what you are in the dark, or off on a vacation.

—Selected.

KNOX and WESTCOTT

Do not miss this series of discourses on the Life of Christ, and its application to everyday life. Among the series is one on the Gospel of relaxation, and should not be missed. The theme this Sunday is "What did Jesus do?" The Church is delightfully cool and restful. You'll enjoy the Day of Rest better if you spend part of it at Divine Service.

Bone Pine Hall

Mr. Hayes is expecting to take the services this Sunday at 3 p.m. with a special message.

BAPTIST CHURCH.

We take great pleasure in announcing that Mrs. Eva Rose York well known Bible teacher, will speak in the Westcott Baptist church on Sunday evening, July 17th. She will also speak in the church on Monday and Tuesday, and possibly also on Wednesday evening.

A cordial invitation is extended to all come and hear this woman of beautiful christian character give her expositions of scripture.

A new departure in the province was the recent formation of an association known as the Nova Scotia Chinchilla Rabbit Breeders' Association, at a meeting at Kentville, with F. W. Foster of Dayspring, president; Mrs. J. B. Barrett, of Avonport, vice-president, and G. E. Roberts, of Grand Pré, secretary. Pelts will be marketed through the English Fur Board.

Search for the missing French aviators, Nungesser and Coli has been resumed by two Pathe News and two New York Daily News men who arrived at the C.P.R. station in Montreal recently enroute to Chicoutimi. Three of the party will form a land expedition, while the fourth will fly into the Quebec woods from Grand'Mere. They will stay in until the mystery of the flares is cleared up.

B. Macdougall, former Saskatoon aviator and now a leading stunt flier in Los Angeles, has written asking if the citizens of Saskatoon will provide a plane to be entered in the flight from the Pacific coast to Hawaii, which he will fly. He offers Saskatoon backers half the prize money and half any other receipts, should he be successful. The President of the Star has announced that The Star is prepared to make a substantial contribution towards the \$15,000 required. The plane would be named the "City of Saskatoon."

Construction will be started shortly, it is announced, on the 2,400,000 bushel elevator to be erected by the Alberta Wheat Pool at Vancouver, and it is expected that the big plant will be ready to handle grain from the 1927 crop.

Twenty-three members of the Ohio Wesleyan Glee Club sailed recently on the Canadian Pacific steamship Montrose for England, where they will visit a short while before beginning a singing tour of the countries of central Europe to last about a month.

The Holy Land is to be officially represented at the World's Poultry Congress, it is announced. Dr. David Uri of the poultry experiment station in Palestine, will represent that country at the great international event to be held in Ottawa from July 27th to August 4th.

A new direct steamship service between Saint John and Havana, Cuba, will likely be inaugurated from the first of September, when the potato shipments start, if the New Brunswick Government and the shippers of the province back the project, said F. L. Estabrooke, of Sackville, just returned from a trip of enquiries in Cuba.

A bed which rocks its occupant to sleep has been invented by Sir Alfred Yarrow, British scientist. Sir Alfred, while travelling across Canada on the Imperial Limited some months ago, noticed that the slight sway of the train cured his insomnia. This fact resulted in his constructing the unusual bed which enables him to sleep soundly.
